

Space Palette Pro

- It's a *Visual Music Instrument*
 - You play by finger painting on pressure-sensitive pads.
- As a visual instrument
 - Your fingers are three-dimensional paintbrushes.
 - Finger pressure changes the size of the graphics.
- As a musical instrument
 - Your fingers are strumming the pads like a harp.
 - Lower notes toward the left, higher notes toward the right.
 - Faster notes toward the top, slower notes toward the bottom.
- Your fingers control everything
 - Each finger plays notes and paints visuals at the same time.
 - Each pad plays a different sound and graphic.
 - Use the touchscreen to select different Palettes.
- You can build your own!
 - All information is being open sourced.
 - Complete parts list, CNC data, and custom software
